What to Expect When You're Expecting . . . A GSA Schedule Audit! A Simple Steps to Navigate

08:00 AM - 09:00 AM EST

Next in the GovCon Breakfast Series -- What to Expect When You're Expecting . . . A GSA Schedule Audit! Simple Steps to Navigate Uncertainty

presented by Leo Alvarez, Baker Tilly

This webinar will provide the audience with an overview of GSA Schedule audits and provide practical steps to move confidently through a review. Baker Tilly also plans to describe why GSA Schedule contract holders that still have a Commercial Sales Practices (CSP) disclosure are particularly at-risk for scrutiny and potential disruption.

Special consideration in this area is particularly important for professional services GSA Schedule contract holders as we move deeper into calendar year 2025. GSA is expected to see an influx of activity as 2025 will mark the 10th year since the Professional Services Schedule (PSS) consolidation, and thus the 2nd option period for contract holders who were affected by the change. This impending wave of option extension and corresponding audit activity may slow GSA's responsiveness – meaning GSA Schedule contractors should be getting ready today.
