Save the date: Navigating the Wild: A Guide to USFWS and CDFW Candidate Species

12:00 PM - 01:00 PM PST

Embrace Mother Nature and learn about Southern California's wildlife during Earth Month! Join Amber Heredia, Senior Project Manager/Wildlife Biologist at Psomas, as she provides an overview of current Candidate Species proposed for listing under the federal and State Endangered Species Acts. Meet the species, hear about their survey requirements, and how their new elevated listing statuses change how you need to treat them in environmental documents. Discover how the U.S. Fish and Wildlife Service (USFWS) and the California Department of Fish and Wildlife (CDFW) treat these species during regulatory permitting and consultations. This session is designed for environmental professionals seeking to enhance their understanding and application of regulatory requirements related to Candidate species. Don't miss this opportunity to gain valuable insights and practical knowledge!
